BUCKNER HELD UNDER \$15,000 BOND

He is Accused of Attempting to Murder David James

JAMES TOLD STORY OF THE SHOOTING IN COURT

POSITIVELY IDENTIFIED HENRY BUCKNER AS THE MAN WHO FIRED SHOT

HE WAS FOLLOWED WEST ON MESQUITE STREET BY A MAN RIDING A BLACK HORSE

Story of the Tragedy as Told by the Intended Victim—Defendant Did Not Introduce Witnesses—Buckner's Arrest by Ranger Anderson.

Henry Buckner, arrested on the night of October 21, charged with shooting David James with intent to commit murder, had a hearing in Justice Thomas' court yesterday afternoon and was held to the grand jury, which will convene on Monday, in the sum of \$15,000. Failing to make bond, he was committed to the county jail.

The only witness testifying at the hearing was David James, who was recently discharged from the hospital, after suffering for a number of weeks from a bullet wound in the abdomen. Mr. James' testimony in substance was as follows:

"On October 21, while in the performance of my regular business duties,

in different parts of the city, I saw Henry Buckner four times—once in the morning, walking on Broad street, and three times in the afternoon, riding a black horse.

"I went to my home on Oak street for supper between 6 and 7 o'clock. From the house I went to Keegan's saloon, where I met and conversed with Dick Mathews. I stopped a few moments and chatted with him and then started for the electric light plant, going north on Broad street and then west on Mesquite. It was a few minutes after 7 o'clock. As I approached the railroad track on Mesquite street a horseman rode up behind me and I stepped to one side to avoid being knocked down, as the horse was coming very close and directly behind me. As the horse was just opposite me I looked up. I saw a flash, heard the report of a revolver, felt the sting of shot in my abdomen and cried:

"I'm shot! I'm shot!"

"I then made my way to the office of the power plant and was taken to the Old Dominion hospital."

"Did you recognize the man on the horse?" asked District Attorney Henry.

"I did," replied the witness.

"Who was that man?"

"Henry Buckner."

"Are you positive on that point?"

"I am. It was quite light. It was Henry Buckner and he was riding a black horse."

"In which direction did he ride after firing the shot?"

"I cannot state."

This concluded the testimony of Mr. James and the prosecution rested.

The defendant, represented by Attorney Tom Flannigan, did not introduce any witnesses and Buckner was held to the grand jury in the sum stated. There was no intimation at the hearing of what the defense would be.

On the night of October 21 David James was shot as he was passing over the railroad track on Mesquite street near the electric light plant. Shortly after the shooting he informed the offi-

cers that the man who shot him was Henry Buckner and that he was riding a black horse. Witnesses to the tragedy stated that the man had rode west on Mesquite street and that after firing the shot had galloped his horse south along the railroad. Ranger Anderson immediately took up the chase and found the trail leading out over schoolhouse hill. By dismounting and lighting matches occasionally he followed the trail about four miles from the city, where he met Henry Buckner coming toward Globe wabbling in his saddle and apparently intoxicated.

Buckner was placed under arrest and later informed of the charge against him. He stated that he had been out to a mining camp, leaving the city about 4 o'clock, and that he knew nothing whatever of the tragedy. He has since protested his innocence.

Rawlins & Little, the well known local attorneys, will assist District Attorney Henry in the prosecution of the case.

IN ROOSEVELT MONEY TUCSON ISSUES \$6,500

DEMAND FOR CLEARING HOUSE ASSOCIATION SCRIP HAS BEEN VERY MILD

THE SMALL AMOUNT IS KEPT IN CONSTANT ACTIVITY PASSING FROM ONE TO ANOTHER

Outside of the Bank's Reserve Fund It Is Estimated that About \$100,000 Is Floating Around in the Old Pueblo—Cash Supply Steadily Gaining.

TUCSON, November 15.—With the clearing house plan in operation here more than a week, there have been issued in certificates by the three banks of the city, only about \$6,000 according to J. M. Ormsby, cashier of the Arizona National bank.

This small sum is taken as an indication that there is considerable money in the city in the possession of the business men and residents. It is a conservative estimate that there is at least \$100,000 in cash in Tucson outside of the money which the banks have.

It was learned at the banks today that the clearing house certificates circulate rapidly and as a result there has been little call to issue additional certificates. At the meeting which the members of the clearing house held last Saturday afternoon, it was found that only about \$5,000 had been issued and since that time there has not been more than \$1,000 additional of the scrip put out.

This is taken as the strongest indication that the city is in good shape financially and that despite the difficulty that is being experienced generally in securing ready cash, Tucson is pretty well fortified in this respect.

how small a space the works of an accurate timepiece could be compressed.

The jeweler placed the tiny ornament in his window as a curiosity, but one day a smartly dressed lady entered the shop to make a close examination of the curiosity and persuaded him to sell it for \$250. She slipped it upon her finger over her glove and left the shop.

Shortly afterward the jeweler had so many calls for ring watches that he ordered a dozen from his watchmaker, and now the fashion seems to be fairly well established.

In conversation with a newspaper correspondent the jeweler said that they would probably be very popular as Yuletide gifts.

"They may be obtained in a number of forms," he said. "The ring may be of plain gold, filigree or expanding chain, while the watch it carries may be of plain or beaten gold, engraved, or gem-studded around the outside of the dial. Diamonds, pearls or varicolored gems may be used to beautify the timepiece."

The most beautiful, perhaps, are those trimmed with enamel, into which are set the various precious stones. The dainty ornaments are a triumph of the watchmakers' art, and so small and well-proportioned are they that on even the slenderest hands they look neither ostentatious nor bizarre.

But this latest luxury is an expensive one, for the cheapest ring watch costs \$100, and from this the price ranges up to three or even four times that amount, the price varying, of course, with the number and quality of the gems used. The workmanship, however, is the same in each watch, and the works will stand a surprising amount of knocking about before requiring repair. They keep excellent time, to within a minute a day.

It is predicted that the ring watch will supersede the ladies' wrist watches that grew out of the strap watch used by British soldiers in the field, the army regulation against pocketing making a wrist snap watch necessary for them.

At present no pockets of any description are being placed in gowns for women. For some time the custom of wearing a watch fastened by a clasp over the breast has been gradually disappearing, so the new style seems to have made its appearance at an opportune time. Some persons consider it a hideous idea, but that is no reason why it should not become fashionable.

AN AGED SENATOR HAS LOVE AFFAIR

ANSWERED AN ADVERTISEMENT ISSUED BY A FAIR BRUNETTE, AND NOW THE OLD LIBERTINE IS IN THE ROLE OF A PAPA.

ROME, November 15.—The newspapers are publishing piquant details of an adventure with a senator with a distinguished career and a beautiful girl, belonging to an aristocratic eVentian family, figure.

One evening an advertisement appeared in the Tribuna to the effect that a young lady, brunette, and of pleasing appearance, desired to make the acquaintance of a gentleman. Applicants were to address their letters "Post Restante, Rome."

The young lady found one reply to her advertisement. The writer of the letter requested her to proceed to the station that day in a closed carriage. The young woman drove to the station, and was at first greatly surprised when an old gentleman appeared before her. But she soon became friendly with the stranger, who styled himself "Count Roselli," and accompanied him to Saint Maria Maggiore. There quarters were secured for her. Weeks elapsed, and then the young woman discovered that she would become a mother. The news came as a surprise to "Count Roselli," who hastened to Naples.

Today the senator and former minister stands under the charge of having taken away a girl under age. The girl is a countess and the senator's age is given as 87.

A TINY WATCH TELLS THE TIME IN FINGER RING

LONDON SOCIETY ADOPTS LATEST THING IN TIMEPIECES—DIMINUTIVE CLOCKS ARE COSTLY AND HAVE UNIQUE HISTORY.

LONDON, November 15.—Tiny watches, that tell the time with surprising accuracy and which are worn on finger rings over milady's gloves, are the very latest novelties in the form of practical ornaments to be seen now in the windows of a Bond street jeweler.

The jeweler in question received one of these ring watches recently from his Swiss watchmaker, who had his workmen make the ornament as the result of an argument over the question into
